SELECTMEN'S REPORT.

The Board of Selectmen, in reviewing the affairs of the Town for the year 1893, feel that they have reason to congratulate the citizens that, although the country has passed through a great business depression and financial troubles, the Town of Saugus has without doubt felt the evil effects as lightly as any town in this Commonwealth, and by the report of the Auditor we find the financial condition of the Town compares very favorably with previous years — in fact it shows a deficiency of over $3,000 less than in the year 1892. The year just passed has been an expensive one in many respects. Our increased population has required expenditures in many departments which in proportion to the size of our Town may seem large, but we feel that the efficient work of those in charge of the departments will be appreciated by our citizens, and has spoken well for itself. These matters we will dwell upon more specifically as we take up the several divisions.

We have endeavored to keep within all appropriations, and although in a few cases the report at first glance would indicate an over-run, a closer examination will show that the figures are only caused by expenditures which are repaid to the Town and form an income which we cannot take into consideration in making our charges.

We are pleased to repeat one clause of our report for the year 1892, that "The Board has endeavored to act for the best interest of the Town, and every vote taken has been unanimous." This report at the end of two years' service is most satisfactory to the Board, as we know it must be to the Town.

The increased business of the Town of course increases the calls upon the Selectmen's Incidentals, and the Board should naturally call for a larger appropriation than in previous years; but there are some expenses which it seems to us should be covered by a separate appropriation from our incidentals. We allude more particularly to the Board of Health expenses, and

also insurance, particularly the latter. The coming year we shall be obliged to renew the insurance on the Town Hall, as well as place insurance on the new school building at Cliftondale, and to cover these two items and other insurance which expires in 1894, we would recommend an appropriation of $1,000. We would recommend an appropriation for the Board of Health; the amount, however, we will leave for that body to suggest, and taking these two items from our expenses, we would simply ask for the same amount as the previous two or three years, $5,000.

We will now consider the several departments separately.

HIGHWAYS.

In this department we have endeavored to continue the policy of last year, and to do thoroughly as far as it lay in our power with our appropriation, and we feel well satisfied with the work our Superintendent has shown in this respect. With the exception of the piece of road from Cliftondale to Bristow Street, and a portion of Central Street, our main thoroughfares are now in excellent condition. The coming year we shall endeavor to place the sections referred to on a par with the other streets and then give our attention to the smaller ways of the Town, and we are confident that our Street Superintendent at the end of the year 1894, will have our highways where they deserve the reputation of former years.

The purchase of land for gravel, for which the Town made an appropriation of $1,000, and on which we have expended $900, we think was a wise move, and will contribute in no small degree to our advantage.

Our expenditure last year for removing snow was far in excess of our anticipation, and we hope heavier than the coming year, and as we feel that with the present condition of business we should be as economical as consistent with good work, we will only ask, or rather recommend, the same appropriation for this department as last year, which was $5,000.

SALEM TURNPIKE.

This expensive luxury to the Town has received marked improvement over past years, and the verdict of those whose

business requires their use of it has been one of praise, and an expression of the wish that our Superintendent could continue into Revere.

Our expenditures the past year were even less than in 1892, amounting to $927.52, of which the County repays 75 per cent. We would recommend an appropriation the same as last year, of $1,000, for 1894. In this connection, however, we would call the attention of our citizens to a petition which will be brought before our annual meeting that this highway may be made a State Road, in which case it will be taken out of the hands of the Town altogether, and we shall be saved all expense and liability regarding it. It certainly would be for the best interests of the Town could this be done.

STREET LIGHTS.

There is very little to say in this department different from the year 1892. The only change has been the addition of one electric light on Central Street, which would necessitate an additional expenditure of $72 per year. Our appropriation last year was $3,700, covering both electric and oil lights. To do the same work this year we would require an appropriation of $3,800, and if the Town elects to increase their lighting service, of course it will be necessary to increase the appropriation. We endeavor to get the best possible service for the money, but of course it is impossible to cover the more thinly populated parts of the Town as well as some of our citizens would desire. This department is rather more for the voters to express their wishes regarding than for the Board to act upon themselves, and we are of necessity governed by the action of the Town.

FIRE DEPARTMENT.

As this department stands more by itself as far as the connection with this Board is concerned, we feel that the Chief Engineer can make a more complete report to the citizens and should be properly looked to in this respect. We wish, however, to compliment the members of our Department on their willingness to respond to the calls made upon them, and the efficient work they have performed for the Town.

We realize that the needs of this Department are somewhat

in excess of the pocket-book of the Town. As far as it goes, everything, we believe, is first-class. Our apparatus and fire alarm service will compare very favorably with much larger towns and our alarm system cannot be surpassed by any of the cities in the country. It has been suggested that the Town should own horses which could be used in other departments where we are now obliged to hire, and could be kept where they could be depended upon for service in this Department when required. This, however, we leave for our Chief and citizens to express their views upon.

POLICE.

The past year has shown quite a change and a new departure in this department to the town of Saugus. We know that the appropriation for the year 1893 seemed to many of our citizens as large, but we feel that the marked improvement in the enforcement of law has shown that it was warranted. Situated as we are, on the borders of the City of Lynn, with the city of Malden on the south, and larger towns around us, we are under the necessity, in order to carry out the duties of our office, to have a systematic police protection. The expenditure, we feel safe in saying, has been less per thousand inhabitants than in other places, and when we call the attention of the citizens to the present condition of our town, particularly in connection with the enforcement of the liquor law, we feel that they will join with us in commending the work of our officers. While our neighboring towns have suffered many breaks and robberies, we have been fortunate to escape; and from some experiences of our officers with suspicious characters entering our town in the middle of the night, we feel that without this efficient service we should not be able to make this statement.

We are pleased to state that the prophecy in our report last year, as to freeing the town of liquor nuisances, has been fulfilled, and to-day there is not a house within our limits where liquor is known to be sold illegally. We presume there are a few instances where if a party is well-known and also knows how, they could obtain something to quench their thirst; but the breakers of the law in this line in Saugus to-day are very careful to keep well in the dark.

The expenditures in this department have been largely increased by the call for officers at the Franklin Trotting Park. This, however, is repaid to the town, and the proprietor of that place has shown an inclination to aid our department in enforcing law, and has never complained of the number of officers we have thought advisable to place at this resort when required. Crediting the department with these receipts, together with the fines, we have not expended the appropriation made at our March meeting by some $400. We formed our present department the first of May, and therefore to continue our present system would require more of an appropriation even than last year, as we would have four months more of service, but as we feel that the efficient work of the past year will somewhat reduce the call for special officers, we believe that with an appropriation of $3,000 for 1894, we can cover the expenses of this department. We therefore would recommend this amount, and also that the town authorize the expenditure of the receipts of this department in addition thereto.

CEMETERY AND WINTER STREET IMPROVEMENTS.

As the bulk of the expenditure on the appropriation for Winter Street has been in the construction of the bank wall against the cemetery, we combine these two departments. Winter Street will be an expensive item to the town for several years, until it can be placed according to the directions of the County Commissioners. We made a beginning last year with an appropriation of $500. We believe that the appropriation for the coming year should be $750.

Our appropriation for Cemetery last year was $750. Our receipts for lots sold amounted to about $650, or nearly the expenditures, and that there has been a marked improvement in the appearance of this place, we believe our citizens themselves will acknowledge. We would recommend the same appropriation as last year for the year 1894.

Before closing our report, there are a few general matters we wish to call the attention of our citizens to.

First, our town buildings. There is a need, and an urgent one, of repairs, and also the painting of many of the buildings,

particularly the Town Hall. To do this properly would require more of an expenditure than your board feel they would be justified to make from their incidentals, and we would suggest that the Committee on Appropriations take this under consideration, and that some appropriation be made for this purpose, if not to enable us to carry out in full, at least that a beginning may be made.

We would also allude to the improvements likely to come to our town by the electric railway passing through the north and west sections. This will open up parts of our town which heretofore have of necessity shown but little growth in population and values, and must act to our advantage in many ways. The laying of tracks has made the streets in somewhat poor condition, but as the railway companies will be obliged to leave them in good condition, the inconvenience will only be temporary, and the advantages will far more than offset the disadvantages.

Respectfully submitted,

EDWARD BREWER,
MARION V. PUTNAM,
CHARLES FLORENCE,
Selectmen of Saugus.

Before commencing our work we decided instead of putting out the same by contract, as heretofore, that it would be advisable, considering the number of men out of employment in the town, to buy stock and tools and do the work ourselves. We did so, with results found in our report.

For total amount of money spent, we have laid as many feet of pipe as could have been laid by contract, and we have on hand a good supply of tools for future use, either for extension purposes or repairs, which is clear gain for the town. It also kept some two thousand dollars ($2,000) of the appropriation in town giving employment to some ninety men that were idle.

It appears to this board that the time has arrived when the town should in some way have a supply of water other than through one eight-inch pipe as now. We have had one break in that line this year which left the town without a water supply and fire protection for some twelve hours. Had we been visited by fire during that time, the result can be easily imagined.

We would recommend that the town at its annual meeting in March, appoint a committee to investigate the feasibility of erecting a stand-pipe or in some way overcome this bad feature in our water system, and appropriate a suitable sum to cover their expenses.

There is considerable building in town at present time, and to those so doing the water question is an important factor, and we would ask for an appropriation of $10,000 at March meeting and thus enable the board to do the work in the proper season.

G. W. CASWELL,
FRED. C. CHEEVER,
CHARLES I. HITCHINGS,
Saugus Water Commissioners.

REPORT OF
ENGINEERS OF FIRE DEPARTMENT.

I herewith present my sixth annual report of the condition of the department, with a list of all fires and alarms which have occurred during the year; loss and insurance as near as can be estimated; also recommendations for the ensuing year.

MEMBERSHIP.

The number of members is sixty-eight: Board of three engineers; two companies of twenty each, Hose 2 and 3; one company of thirteen, Hose 1, and a ladder company of twelve.

APPROPRIATIONS AND EXPENDITURES.

The appropriation for the year was $800, with an extra appropriation of $200 on account of expenses incurred in introducing the Fire Alarm system.

The expenses have been $995.71. An itemized account of expenditures will be found in the Auditor's report.

APPARATUS.

The apparatus consists of 3 1-horse hose wagons, 6 Babcock chemical extinguishers, and 3,400 feet of hose, — 1,800 feet first class, the balance was originally third grade and has had six years' service. Each wagon is furnished with 2 play pipes, 6 spanners, 6 hose hooks, 6 rubber coats, 6 fire hats, 1 axe, 1 crowbar, 1 plaster hook, 2 lanterns, 1 hammer, 1 monkey wrench, 2 ladder dogs, 1 jumping net, 2 18-foot extension ladders, 1 blanket, drag rope.

One ladder truck built by Rumsey & Co., New York, equipped with 1 45-foot extension Somerville ladder, 1 30-foot ladder, 1 25-foot ladder, 1 30-foot roof ladder, 2 20-foot roof ladders, 1 pull down hook, chain pole and rope, 2 rakes, 3 pitchforks, 3 long hooks, 1 door opener, 2 axes, 1 crowbar, 2 sledge hammers, 4 crotch poles, 4 lanterns, pair blankets, 4

leather buckets, shafts, pole, hand pole, and drag rope. We have also 2 45-foot Somerville extension ladders, and 2 20-foot roof ladders.

FIRE ALARM.

The system was put in by the Municipal Fire and Police Telegraph Company of Newton Highlands, Mass., and consists of 10 miles of wire, 24 full non-interference boxes, 3 tower strikers, 3 engine house gongs, 4 house tappers, 3 registers, 60 cells of battery, galvanometers, etc. We have also 82 keys to fire alarm boxes, 48 coppers, 37 zincs, 75 pounds vitriol, 2 pairs pliers, 1 vise and strap, 1 bit.

FIRES AND ALARMS.

January 8. — Odd Fellows' Hall, Ward 3, owned by W. Chatfield, and occupied by Cliftondale Lodge, I. O. O. F.; H. F. Fiske, grocery store; James Stewart,b arber shop; public hall and club room; loss total. Building owned by Ida A. Hatch and occupied by James Rea, shoe store; loss total. Building owned by C. H. Bond and occupied by Sidney Rea as dwelling; loss partial. Cause unknown. W. Chatfield, insurance on building $13,000, furniture in public hall $1,000; insurance paid $13,350. Independent Order of Odd Fellows, insurance $1,500, paid $1,500. Henry F. Fisk, insurance $2,000, insurance paid, $1,800. Walter H. Raddin, pool table, insurance $175, insurance paid $175. James Stewart, barber shop, insurance paid $285. Ida A. Hatch, insurance $800, paid $792. James W. Rea, insurance $200, paid $175. C. H. Bond, insurance paid $744. Total insurance paid, $18,821. Sidney Rea met with quite a serious loss to furniture but was not insured. At this fire Chief Downing of Lynn was called on for assistance, and promptly responded with Steamer 3 and complement of men.

February 22. — Copeland House, Lincoln Ave., Ward 3, owned by Hoyt Bros., Lynn, and previously occupied by George W. Copeland, was totally destroyed. Loss on building $6,000, no insurance; insurance on furniture $1,500, partial loss, insurance not yet adjusted. Cause, probably defective flue.

February 23. — Dwelling house on Hesper St., Ward 4,

owned by Thomas E. Rhodes and occupied by George Prouty. Damage to building $90, paid $90; damage to furniture $90, paid $90. Cause, clothes near overheated stove.

March 9. — Dwelling house on Boston St., Lynn, owned by P. Aylward and occupied by several families. Reported in Lynn Fire Department's Report.

April 29. — Alarm for fire in woods on Main St., Ward 2. No damage.

May 24. — Alarm from Chapel, Franklin Park, Revere.

June 9. — Stable occupied by E. R. Newhall. Damage $5, insurance $250. Cause unknown.

July 4. — Dwelling of Albert Hayden, Essex St., Ward 3, fire on roof. Damage slight.

August 9. — Alarm from Box 14, Out-building on Centre St., owned by James Armitage. Damage slight. Probably incendiary.

August 24. — Alarm from Box 15. False.

September 4. — Alarm from Box 26. False.

September 14. — Alarm from Box 35. False.

December 11. — Alarm from Box 26 for fire in unfinished dwelling on Morton Ave., Ward 3, owned by John Mudge, Lynn. Loss $100, insurance $800, insurance paid $100. Cause, overheated stove to dry plastering.

December 30. — Alarm from Box 25 for fire in barn on Knowles Ave., Ward 3, owned by Andrews of Lynn and occupied by Whittier. Total loss; insurance on building $400, insurance paid $250; insurance on contents $700, paid $600. Cause unknown.

The members also responded to fires in woods, under direction of Forest Fire Wards: April 30, Ward 3; April 30, Ward 2; May 8, Ward 4; May 21, Ward 1; July 10, Ward 3; July 11, Ward 5; July 14, Ward 5; July 15, Ward 5; July 16, Ward 5.

ELECTRIC FIRE ALARM.

At the last annual Town Meeting in March, the Town voted to introduce an Electric Fire Alarm system at an expense not exceeding $2,500, to be paid in five annual payments, and a committee consisting of the Board of Selectmen and Board of Engineers was appointed to carry the vote into

effect. Your committee, after a careful examination of the several systems, awarded the contract to the Municipal Fire and Police Telegraph Co., of Newton Highlands, for the sum appropriated. The company performed their part of the contract in a perfectly satisfactory manner, and as far as the system is concerned it works perfectly. The bell in Cliftondale is not satisfactory; we hope some arrangement will be made to have a large bell in the tower of the new schoolhouse as soon as completed. We would recommend that a box be located at North Saugus and one at Oaklandvale.

HYDRANTS.

We have 118 hydrants. One is needed at the corner of Atherton and Hesper Streets.

The Act of the Legislature of 1889 granting the Town of Revere the right to take water from Saugus, provides that the company shall furnish the Town of Saugus water for extinguishing fires when called for by the Board of Selectmen. We would suggest that such action be taken as is necessary to have hydrants placed on the line of their pipe from Essex through Vine and Main Streets to Oaklandvale, as that is the only way by which suitable fire protection can be provided for this part of the town, which is now entirely unprotected.

HORSES.

We would recommend that the town purchase five horses for the use of the department, two for the truck and one each for the three hose wagons. These horses can be kept at work on the streets a great part of the time through the warm weather. They can also be used to move snow in the winter under the direction of the Street Department.

SALARIES AND EXPENSES.

Since the first of May we have paid the members for time in service 25 cents per hour, which is a very small sum for the kind of labor performed. We think it would be better to pay a sum for the year, as is the plan in all other towns about

here. We could reduce the number of members under this plan.

We would respectfully recommend that the sum of $1,300 be appropriated for expenses of this department the ensuing year.

Respectfully submitted,

CHARLES I. HITCHINGS,
Chief Engineer.

Board of Engineers.

C. I. HITCHINGS, Chief, East Saugus.
C. O. THOMPSON, Assistant and Clerk, Cliftondale.
JAMES F. PRATT, Assistant and Supt. of Fire Alarm.

REPORT OF BOARD OF HEALTH.

Saugus, Mass., December, 1893.

The Board of Health respectfully submits the following as its annual report for the year 1893.

The Board was elected, consisting of Charles F. Clark, Charles W. Dearborn, and Walter S. D. Hitchcock. Mr. Dearborn resigning, the vacancy was filled by electing Henry A. Parker of East Saugus. The Board then organized and elected the following officers: —

Walter S. D. Hitchcock, M. D., Chairman,
Henry A. Parker, Secretary,
Charles F. Clark, Health Officer.

Regular meetings to be held at Town Hall on first Monday of each month at 8 P. M.

The rules and regulations previously used were revised and the following were adopted: —

[Extracts from the Public Statutes of Massachusetts, Chap. 80, Sect. 18.]

"The Board of Health of a Town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulation shall forfeit a sum not exceeding ONE HUNDRED DOLLARS."

REVISED REGULATIONS.

The Board of Health of the Town of Saugus hereby makes and publishes, as required by the Public Statutes of the Commonwealth of Massachusetts, the following regulations for the public health and safety: —

CONTAGIOUS DISEASES.

Rule 1. When a physician knows that a person whom he is called to visit is infected with small-pox, diphtheria, scarlet

fever, typhoid fever, or any other disease dangerous to public health, he shall immediately give notice to the Board of Health.

RULE 2. When a householder knows that a person within his family is sick of cholera, small-pox, diphtheria, scarlet fever, typhoid fever, measles, or membranous croup, he shall immediately give notice to the Board of Health, and upon the death, recovery, or removal of such person, the rooms occupied, and the articles used by him, shall be disinfected by such householder in the manner hereinafter provided, and subject to the approval of, and under the direction of the Board of Health.

RULE 3. The Health Officer shall place, or cause to be placed, a "warning!" card upon the front of houses containing a case of contagious disease, within twenty-four hours of receiving notice of same from the attending physician.

Persons removing the card without the authority from the Health Officer shall be prosecuted by the Board of Health.

RULE 4. No pupil shall be allowed to attend the public schools while any member of the household, to which said pupil belongs, is sick of small-pox, varioloid, diphtheria, membranous croup, scarlet fever, measles, or any other contagious disease, or during a period of two weeks after the death, recovery, or removal of such sick person; and any pupil coming from such household shall be required to present to the teacher of the school, which the pupil desires to attend, a certificate from the attending physician, or Board of Health, of the facts necessary to entitle him to admission in accordance with the above regulation.

RULE 5. In case of any of the diseases mentioned in Rule 4, the patient must, as far as possible, be nursed by only one person, and no member of another household shall be allowed to enter the sick room, except in the capacity of nurse or physician.

RULE 6. No person from any dwelling wherein a case of small-pox, diphtheria, scarlet fever, or other contagious disease exists, shall take any book or magazine to or from the Public Library without a permit from the Board of Health. The Board will inform the Librarian of all cases of said diseases, and until a written permit is given, he shall allow neither books nor magazines to be taken to or returned from the dwellings where such cases exist.

RULE 7. In all cases of cholera, small-pox, diphtheria, scarlet fever, typhus fever, and membranous croup, the rooms occupied during the sickness must be disinfected by the householder, under the direction and supervision of the Board of Health (see article on disinfection). They must be tightly closed and sulphur burned in them at the rate of three pounds per one thousand cubic feet of space. They must remain closed from six to twelve hours, then opened and aired thoroughly before further occupancy. The bed and bedding must be well spread out and exposed to the same sulphur fumes.

RULE 8. No patient affected with any contagious disease will be considered well and free from isolation until the attending physician, or a physician employed by the Board of Health, certifies that he has personally inspected the patient and found that he is no longer a source of danger. No such certificate will be received by the Board of Health, in case of scarlet fever, until at least three weeks have elapsed from the beginning of the illness, and desquamation is complete.

RULE 9. Any undertaker or other person having in his care or possession the body of a person who has died of small-pox, varioloid, Asiatic cholera, typhus fever, diphtheria, membranous croup, or scarlet fever, shall give immediate notice to the Board of Health, and shall cause such body, including the face, to be wrapped in a sheet saturated with ten-per-cent solution of chloride of zinc, and shall immediately place it in a sealed coffin, which shall not thereafter be opened. He shall notify the said Board, or its agent, of the time when the body is to be removed, and shall sign a certificate containing a true statement of the fact that he has complied with the foregoing provision of this section, and he, and every person having charge or custody, or right of disposal, of the body, shall cause the burial to take place immediately, and in all cases within eight hours after the time of death, unless further time shall be allowed by the Board of Health. A private funeral shall be held, at which none but the immediate adult relatives shall be present. The body shall, in no case, be removed in any carriage used for conveying passengers; and all carriages used in conveying persons at funerals from houses where anyone has died from any contagious disease shall be immediately disinfected,

under the direction of the Board of Health, after being so used.

RULE 10. In all cases where a physician is attending a patient sick with contagious diseases, and when, in his opinion, the proper time shall have arrived to disinfect the premises, he shall forthwith notify the Board, and upon such notice, an agent of the Board shall visit the premises, and the disinfection shall take place under his direction.

RULE 11. No pupil affected with whooping cough shall attend school until fully recovered, and no pupil so affected shall be permitted to attend school.

RULE 12. The foregoing rules, relative to contagious diseases, shall be enforced until the Board of Health removes from the premises, where the illness has occurred, the placards which notify the public of the existence of the disease.

DISINFECTION.

RULE 13. All physicians, called to treat patients suffering from contagious diseases, shall recommend the use of proper deodorizers and disinfectants, which the Health Officer shall order to be used.

RULE 14. All unnecessary furniture, carpets, woolen hangings, etc., shall, at the outbreak of contagious diseases, be removed from the sick-room, that fewer articles become sources of contagion, and thereby require to be disinfected.

RULE 15. All bedding, personal clothing, etc., where possible, shall be boiled at least half an hour apart from uninfected clothing; and, if this cannot be done immediately, shall be put into a disinfectant fluid.

RULE 16. Infected feather beds, pillows, and hair mattresses, shall have their contents removed and fumigated; infected straw and excelsior shall be burned. The coverings shall be disinfected as directed in Solution IV.

RULE 17. Clothing, woolens, etc., which cannot be properly boiled, shall be baked in a hot oven, or fumigated in a closed room, or burned if rendered useless.

SOLUTIONS FOR DISINFECTION.

Advised by American Public Health Association.

SOLUTION I. Best Chloride of Lime 4 ounces; soft water, 1 gallon. For sputa, vomited material and discharge in

cholera, typhoid fever, etc., in quantity to cover; ½ cupful for holding sputa. Powdered Chloride of Lime sprinkled freely in privy vaults.

Sol. II. Corrosive Sublimate and Potash Permanganate, of each, 2 drachms, to soft water, 1 gallon. Four or five gallons daily for privies.

Sol. III. Liq. Chlorinatæ Sodæ, 1 to 5 parts soft water, for washing woodwork; 1 to 20 for the person externally.

Sol. IV. Corrosive Sublimate, 4 ounces, Permanganate Potash, 1 drachm, to water, 1 gallon, in wooden or earthen ware.

Seven ounces of Sol. IV. to water, 1 gallon, is sufficient for disinfection of clothes by immersion before washing. Four ounces Sol. IV. to water, 1 gallon, to wash woodwork, etc., which in twenty-four hours must be again washed with soft soap.

Sulphur, 3 pounds, to 1,000 cubic feet of air for fumigation of rooms and woolens.

N. B. — Free ventilation of room during sickness.

Care should be used in the preparation, use, and storage of these articles, since all efficient disinfectants are more or less poisonous, if swallowed.

PLUMBING.

Rule 18. Every pipe connecting a water-closet with a soil pipe or cesspool shall be trapped, each separately, and close to the connection with each water-closet.

Every waste pipe shall be trapped, each separately, and close to the connection with each bath, sink, bowl, or other fixture.

CONTAGIOUS DISEASES AMONG DOMESTIC ANIMALS.

Rule 19. Whoever has knowledge of or has good reason to suspect, the existence of a contagious disease among any species of domestic animals, whether such knowledge is obtained by personal examination or otherwise, shall forthwith give notice thereof to the Board of Health.

Rule 20. No person, except as ordered or directed by the Board of Health, shall drive, or cause to pass through said Town of Saugus, from place to place, or from place to place

therein, animals diseased or infected with pleuro-pneumonia, farcy, or glanders, or rabies, or any other contagious or infectious disease.

RULE 21. Persons having the care and custody of animals diseased or infected with pleuro-pneumonia, farcy, glanders, or rabies, or any other contagious or infectious disease, whether their own property or otherwise, and having received an order for their isolation, shall neither sell, swap, trade, give, nor in any way dispose of such animals; nor drive, nor work, nor move, nor allow them to be moved away from the place of isolation, nor allow other animals, not already exposed, to come in contact with them, until otherwise ordered by the Board of Health of the Town of Saugus, or the State Cattle Commissioners.

N. B. — The penalty established by law for the violation of the provisions of the foregoing rules, 19, 20 and 21, is a fine not exceeding five hundred dollars ($500.00), or imprisonment not exceeding one year.

VACCINATION.

Attention is called to the following requirements of the Public Statutes regarding vaccination: —

Chapter 47, Section 9. — "The School Committee shall not allow a child who has not been duly vaccinated to be admitted to or connected with the public schools."

Chapter 80, Section 51. — "Parents and guardians shall cause their children and wards to be vaccinated before they attain the age of two years, and re-vaccinated when the Selectmen, or Mayor and Aldermen, shall, after five years from the last vaccination, require it. For every year's neglect, the party offending shall forfeit five dollars ($5.00)."

Section 52. — "The Selectmen and Mayor and Aldermen shall require it and enforce the vaccination of all inhabitants, and when, in their opinion, the public health requires, the re-vaccination of all the inhabitants who do not prove to their satisfaction that they have been successfully vaccinated or re-vaccinated within five years. Every person over twenty-one years of age, not under guardianship, who neglects to comply with any such requirements shall forfeit five dollars ($5.00)."

Section 53. — "Towns shall furnish the means of vaccination

to children of their inhabitants who are unable to pay for the same."

Section 54. — "Incorporated manufacturing companies, superintendents of almshouses, city reform schools, industrial schools, lunatic hospitals, and other places where the poor and sick are received; masters of houses of correction, jailers, keepers of prisons, warden of the states prison, and superintendents or officers of all other institutions supported or aided by the state, shall, at the expense of their respective establishments or institutions, cause all inmates thereof to be vaccinated immediately upon their entrance thereto, unless they produce sufficient evidence of previous successful vaccination within five years."

Section 55. — "Every town may make further provisions for the vaccination of its inhabitants, under the direction of the Board of Health or a committee chosen for the purpose."

CESSPOOLS, PRIVIES, AND VAULTS.

Rule 22. No person shall build, or cause to be built, any privy, vault, or cesspool, unless the same is constructed in a thorough and substantial manner, lined with stone, brick, or other suitable material of sufficient thickness and strength to prevent the walls from falling in, and located so that the inside of the same shall be at least three feet distant from the line of any adjoining lot or street. Every cesspool shall be of sufficient size to contain at least eighty cubic feet, measured below two feet beneath the surface of the ground, and, when not water tight, shall be at least twenty feet from the outside of the cellar wall of any tenement or dwelling, and thirty feet distant from any well, spring, or any other source of water supply used for culinary or domestic purposes. In no case shall the drainage from a privy, vault, cesspool, or sink, or foul drainage from any domestic source, be permitted to enter any stream, brook, run, or pond within the limits of the town.

Rule 23. All privies and vaults shall be cleaned at least once a year. Any privy or vault not cleaned within that time shall be declared a nuisance.

CLEANLINESS OF HOUSES AND PREMISES.

Public Statutes, Chapter 80, Section 24, provides: —

"The Board, when satisfied, upon due examination, that a

cellar, room, tenement, or building in its town, occupied as a dwelling-house, has become, by reason of the number of inhabitants, want of cleanliness, or other cause, unfit for such purpose, and a cause of nuisance or sickness to the inhabitants or the public, may issue a notice in writing to such occupants, or any of them, requiring the premises to be put in a proper condition as to cleanliness; or, if they see fit, requiring the occupants to quit the premises within such time as the Board may deem reasonable. If the persons so notified, or any of them, neglect or refuse to comply with the terms of the notice, the Board may cause the premises to be properly cleansed at the expense of the owners, or may remove the occupants forcibly, and close up the premises, and the same shall not be again occupied as a dwelling-place, without the consent in writing of the Board. If the owner thereafter occupies, or knowingly permits the same to be occupied, without such permission in writing, he shall forfeit not less than ten dollars ($10.00), nor more than fifty dollars ($50.00)."

In considering the number of occupants, in accordance with the foregoing section, this Board will consider a sleeping-room to be overcrowded unless there should be at least three hundred (300) cubic feet of air space for each inhabitant occupying the same.

Rule 24. No person shall remove or carry in or through any of the streets, squares, courts, lanes, avenues, places, or alleys within the town, stinking or offensive matter, or any house dirt or house offal, either animal or vegetable, or any grease, bones, or any refuse substance from any of the dwelling-houses or other places in the town, unless such person so removing or carrying the same, and the mode in which the same may be removed or carried, shall be expressly licensed by the Board of Health, upon such terms and conditions as it may deem the health and interest of the town may require.

Rule 25. No person, without a license from the Board of Health, shall throw into or leave in or upon any street, court, square, lane, alley, public square, public enclosure, vacant lot, or any pond or body of water, within the limits of the town, any dead animal, dirt, sawdust, soot, ashes, cinders, shavings, hair, manure, oyster, clam or lobster shell, waste water, rubbish, or filth of any kind, or any refuse animal or vegetable

matter whatsoever; nor shall any person throw into or leave in or upon the flats or tide water within the jurisdiction of the town, any dead animal or other fowl or offensive matter.

RULE 26. No person shall bury the contents of any vault or cesspool on premises occupied by him or his tenants, or allow any filth or bad-smelling water to run out upon, or be thrown upon the surface of the ground of such premises.

RULE 27. Kitchen and waste sinks must be safely and securely connected with cesspool or well-covered drain, and must not be permitted to discharge by spouts, or otherwise, upon the side of the house or upon the surface of the ground.

RULE 28. No person shall keep any fowl or animal in any place in the town where the Board of Health may deem such keeping detrimental to the health or comfort of the residents of the neighborhood, or to those who may pass thereby; and said Board shall have the power to remove or cause to be removed therefrom any such fowl or animal so kept.

RULE 29. No swine shall be kept within the limits of the town, without a license first obtained therefor from the Board of Health, and then only in such place and manner as it shall direct.

RULE 30. Owners and occupants of livery and other stables within the town shall not wash or clean their carriages or horses, or cause them to be washed or cleaned in the streets or public ways. They shall keep their stables and yards clean, and not allow large quantities of manure to accumulate in or near the same at any one time between the first day of May and the first day of November, and no manure shall be allowed to accumulate or remain uncovered outside of a stable building.

RULE 31. No person shall remove a dead body or its remains from a grave or tomb in the town, or disturb in a tomb or grave such body or its remains, except in accordance with a permit from the Board of Health.

RULE 32. No person shall open a grave or tomb between the first day of June and the first day of October for any other purpose than that of interring the dead, except in accordance with a permit from the Board of Health.

RULE 33. No person, except the Superintendent, shall open or dig a grave in any burial-ground, except in accordance with a permit from the Board of Health.

UNWHOLESOME FOOD.

RULE 34. No person shall sell, or offer for sale, or have in his possession with intent to sell, in this town, any unwholesome, decayed, or stale fruit, vegetables, or provisions of any kind whatever, or any tainted, diseased, corrupt, decayed, or unwholesome meat or fish, or any adulterated article of food.

OFFENSIVE TRADE.

RULE 35. No person or company shall erect or maintain within the limits of this town any manufactory or place of business dangerous to life or detrimental to health, or where unwholesome, offensive, or deleterious odors, gas, smoke, deposits, or exhalations are generated, without the permit of the Board of Health; and every such establishment now existing shall be kept clean and wholesome in every particular, so as not to be offensive or prejudicial to life and health.

Adopted May 6, 1893.

At the town meeting in March, 1893, the article relating to the appropriation of $500 for the Board of Health, was, I believe, indefinitely postponed, which practically left the Board without funds except what was drawn from incidental expense funds of Selectmen. The town should appropriate at least $300 for the Board, and we would respectfully recommend the same, that the Board, which is a public necessity, may have something with which to do the work for which it has been elected. The matter in regard to the wagon and air-tight barrels, which was referred to Board of 1892 and recommended by them, was also discarded at town meeting. Notwithstanding all this, an enterprising citizen equipped a wagon with barrels, approved by this Board, and conducted the business of cleaning vaults and cesspools in a thorough manner, and this Board found much need of an apparatus of that kind which allowed of the carting of all refuse without any odor or drippings along public highways. The Board made personal investigation of a number of reported nuisances, and on their tour found much work to be done in regard to neglected privies and vaults. These cases were reported to the owners, and in the majority of cases were looked after in a satisfactory

manner. Our inspector also found many places where sinks were not secured by traps, which allows of all gases arising from contents of cesspools to flow back into the rooms occupied by the residents. This should not be allowed, and the Board has obliged owners to correct these troubles so far as its knowledge of them is concerned. There are many of them still in existence, probably, which will not be known without a general inspection, and we hope owners will look after the same and save the expense of having an inspector to examine and report. In a town situated as we are, without any sewerage system, it is exceedingly hard to have things kept as they should be, and it is only by the hearty coöperation of landlords and tenants that we can hope to have our town a healthy one. During the past summer months we endeavored to have everything in good condition so that if the epidemic of cholera which was threatened, should come, we would be in a position to combat it with a comparatively clean town. We have granted a large number of licenses to residents to maintain boarding places for infants, also a few licenses for slaughtering cattle, and also for keeping pigs in such places and in such manner as not to interfere in any way with the health or sanitary condition of the town. We think by a thorough reading of our rules and regulations that much may be learned, and hope that all will try and follow them. We have taken up all subjects so far as practicable, and there can be no excuse for not knowing what is required of owners and occupants of premises. Perfect cleanliness of dwellings and surroundings is what will insure good health and is of the utmost importanee, as by its strict observance the air is not polluted and germs of disease find no lurking places.

We have to report 45 cases of infectious and contagious disease, of which 43 are measles, 1 scarlet fever, and 1 typhoid fever.

WALTER S. D. HITCHCOCK, M. D.,
C. F. CLARK,
H. A. PARKER,
Board of Health of Saugus.

REPORT OF CHIEF OF POLICE.

I herewith present my annual report for the year of 1893, giving a list of membership of the department, number of arrests made, how they were disposed of, and a list of other work done by the department for the year.

MEMBERSHIP.

The force is composed of 3 regular and 6 special officers, as follows: — Frank W. Joy, James J. Murphy, and Frank P. Hardiman are the regular officers; they report at the Town Hall at 6.30 P. M. and go on duty at 7.30 and stay on until 3.30 A. M. The specials are Eugene Stevens, Keeper of Lockup, John Brierley, James L. G. Estes, Dana B. H. Walker, Edward Lawrence, and Charles D. Brown.

TOTAL NUMBER OF ARRESTS, 98, AS FOLLOWS: —

Drunk, 34; for out of town officers, 6; for threat, 2; assault, 9; violation of town by-law, 12; cruelty to animals, 3; disturbance of the peace, 7; insane, 2; bastardy, 2; on suspicion, 1; pool selling, 6; vagrant, 1; walking on railroad, 1; keeping unlicensed dog, 2; profanity, 1; violation of liquor law, 5; surrendered by bondsman, 1; capias, 1; stealing a ride, 1; obstructing an officer, 1. Of the above arrests 54 were out of town people and 44 were people that lived in town; 95 were males and 3 were females.

DISPOSED OF AS FOLLOWS: —

Drunks released, 28; discharged, 8; placed on file, 5; appealed, 6; sent to house of correction, 2; turned over to out of town officers, 8; fined and paid fine, 31; sent to grand jury, 5; sent to superior court, civil session, 1; committed on capias, 1; committed for non-payment of fine, 1; furnished bonds to keep peace, 1; continued, 1.

LIST OF OTHER WORK DONE.

Complaints received and investigated, 45; search warrants served for liquor, 23; liquor was found on 2; buildings found

open and secured, 82; lights furnished for dangerous places in street, 16; fires discovered and alarms given, 3; disturbances suppressed, 3; stray teams found and put up, 2; lost children found and restored, 2; answered fire alarms, 8; dogs shot, 2; horses shot, 1; lodgers put up, 5.

Saugus has in the year just past had something new in the way of police service, that is by having regular officers. I think that as shown by the above statistics the officers have made a good record, and that the *law-abiding* citizens of the town are very well pleased with the work done by the Police. The liquor business, I think, is very well driven out of town; although I do not say there is not a drop of liquor sold illegally in town, I do say, if there is *any* there is but a *small* amount of it.

FINANCE.

By the vote of the March meeting $2,500.00 was appropriated for Police. We have spent $206.27 over the appropriation but when it is explained to the people, I think they will see that we have not really spent the appropriation. The receipts for Police service have been $310.50. The reason we over-ran our appropriation is this: when a special officer goes on duty at a private affair he puts in his bill to the town and is paid out of the appropriation, and when the party pays the bill it goes into the receipts. The receipts from the court for the year were $299.00, so that the net receipts for the year are $403.23. For the year 1894, I would recommend the appropriation of $3,000 for Police service.

In closing, I wish to extend my thanks to the Honorable Board of Selectmen, also to Mr. George M. Amerige, Esq., Trial Justice, for the assistance and favors given for the year just ended; also, I wish to extend my thanks to the officers of the department, regular and special, for the prompt and efficient service rendered in the year just past.

Respectfully submitted,

FRANK W. JOY,
Chief of Police.

FREE PUBLIC LIBRARY.

TRUSTEES' REPORT.

It is with a feeling of more than usual satisfaction that the Trustees of your Library submit this, their annual report. Never in the history of our Library has the interest — and we might say enthusiasm — been manifested, as during the preceding year. The money you have given us has been expended with the greatest care, and the large number of new books that are added from year to year will, we think, account in a great measure for an annually increased distribution of both books and cards.

It was found necessary to build two new cases of shelves to accommodate the increased number of volumes, and for this a special appropriation was made last year. These shelves have been purchased and placed in the Library.

In regard to the yearly examination of books, your Trustees have this year made a new departure. All volumes are now carefully examined by the Trustees as a Board, for we consider that our Library has now become so valuable, that it is a piece of Town property demanding the most careful supervision that we, as servants of the Town, are able to give it, and we are glad to say that as in previous years, no book has been found missing in this yearly examination.

During the past year 8,267 books have been loaned, an increase over the previous year of 1,624. With reference to other figures of expenditure and Library statistics, we would refer you to the Librarian's report, which you will find annexed. Of course with this marked growth in the distribution of books, our expenses have been necessarily increased, but it seems to us that there is no money spent by the Town of Saugus which gives our towns-people more direct benefit than the sums allotted to your Library.

As you all know, books are delivered weekly at Cliftondale and East Saugus. Arrangements are now being perfected to deliver in the same manner at North Saugus, Oaklandvale, and West Cliftondale, as it is our earnest wish and desire to have the benefits of our Library evenly distributed over our whole town.

It may be mentioned in this connection, that Library catalogues are now free, so that there is no expense whatever connected with the taking of books from the Library, and with weekly free deliveries to every part of Saugus, no one has any excuse for not availing himself of what is certainly one of the greatest privileges that any town can offer to its people.

There is not much more that we have to say, but we feel that it is our duty in closing to try and impress upon you all, the great educational influence of the Library, and to ask the hearty coöperation of the voters of this town to help us maintain the Saugus Free Public Library at its present standard, so that we may still continue our work in an efficient manner. After very careful consideration we would ask you for an appropriation of $400 and the dog tax of 1893. This amount is necessary for the ensuing year.

M. B. FAXON,
Secretary.

persons paying property tax	1,152	loss of	16
Total number of persons assessed	1,842	gain of	24

AMOUNT OF PROPERTY ASSESSED.

Number of houses	924	gain of	70
acres of land	*5,741	gain of	14
horses	366	loss of	5
colts	21	loss of	2
cows	527	gain of	19
heifers	18	gain of	4
neat cattle	8	loss of	3
swine	16	loss of	9
fowls	6,360	gain of	624
sheep	8	gain of	1
persons liable to do military duty			879

VALUE OF REAL AND PERSONAL PROPERTY.

Personal property assessed		$303,647 00
Buildings exclusive of land	$1,648,465 00	
Land exclusive of buildings	952,186 00	
Total amount of real estate		2,600,651 00
Total amount of assessed estate		$2,904,298 00

Divided as follows: —

Resident real estate	$1,937,531 00	gain of	$49,710 00
Resident personal estate	225,577 00	loss of	4,600 00
Non-resident real estate	663,120 00	gain of	86,207 00
Non-resident personal estate	78,070 00	gain of	56,119 00
	$2,904,298 00		

* An 11-acre wood lot is assessed this year for the first time. The records do not show that it ever before has been taxed. Also one 3½-acre wood lot is assessed this year, that has escaped taxation for several years.

VALUE OF PERSONAL PROPERTY.

Money at interest . .	$56,697 00	gain of	$4,737 00
Stock in trade . .	88,900 00	gain of	36,450 00
Machinery . . .	74,000 00	gain of	22,950 00
Carriages . . .	15,640 00	loss of	1,262 00
Live stock . . .	53,399 00	loss of	3,596 00
Wood, lumber, etc. .	15,011 00	loss of	7,760 00
	$303,647 00	net gain of	$51,519 00

Total valuation of assessed estate, May 1, 1893,	$2,904,298 00
Total valuation of assessed estate, May 1, 1892,	2,718,062 00
Showing net gain of	$186,236 00

As follows: —

On buildings	$86,985 00	
On land	47,732 00	
On personal	51,519 00	
		$186,236 00

BASIS OF TAXATION.

Amount of appropriations . .	$52,127 00	
State tax	2,825 00	
County tax	2,656 00	
Overlay	1,577 50	
		$59,185 50

Apportioned as follows: —

On real estate	$48,112 04	
On personal estate . . .	5,617 46	
On polls	2,456 00	
Town's income	3,000 00	
		$59,185 50

Total tax for state, county, and town purposes committed to A. Dudley Johnson, Collector, $56,185.50.

Rate of taxation per $1,000, $18.50.

Total population as taken by the Assessors, May 1, 1893, 4,040.

For the information of the tax payers we add a few items of interest, gleaned from the report of Secretary of State, in which is given the tax rate of some of the cities and towns in the Commonwealth

The highest tax is paid by the town of Granville, Hampden County — $27 on $1,000, followed by 22 other towns paying a tax rate of $20 and upwards. The lowest rate is paid by Gosnold, Dukes County — $4.44, and there are 21 other towns paying a tax rate of less than $10 on $1,000. Of the cities, the lowest tax rate is in Boston and Springfield — $12.80; highest, Brockton — $19.70

Gay Head is the poorest town in the state, with its assessed valuation of $18,000. Brookline is the richest, with over $40,000,000, while Boston is the richest city, with nearly $800,000,000.

The total assessed valuation of the state increased $90,000,000 over that of one year previous. Thirty cities and 224 towns increased in valuation, while 98 towns decreased.

The amount of personal property assessed in the state, $589,000,000; real estate, $1,840,000,000; value of buildings, $921,100,000; land, $918,500,000; number of persons assessed on property, 406,000; poll tax only, 475,500; whole number of polls assessed, 675,200.

The average tax rate of towns and cities in the Commonwealth for the year 1893, is $15.06.

In accordance with the requirements of the Town By-laws, the Assessors hereby recommend that the sum of $425 be appropriated to meet the estimated expenses of their department for the year 1894.

BENJAMIN F. CALLEY,
BENJAMIN F. ROBINSON,
GEORGE P. HAYWOOD,
Assessors.

REPORT OF SCHOOL COMMITTEE.

To the Citizens of Saugus: —

In conformity to custom and legal requirement, the Board furnish the following report for the past year.

The number of children in town between the ages of 5 and 15, according to the last census, was 751, a gain of 64 over the preceding year. A steady gain is constantly going on, and one of the difficult problems for the School Board to solve is how to accommodate the ever increasing number of pupils. In Wards 2 and 3 much inconvenience and annoyance has come to both teachers and pupils by reason of insufficient room and the poor sanitary conditions of the buildings. We are glad to say, however, that in Ward 3 this trouble will soon be overcome. At the beginning of the fall term the new brick schoolhouse will be completed, and will give accommodation for that section of the town for some time to come.

The building when completed will, we believe, present such architectural features as will be pleasing to our citizens, and will contain all the modern conveniences and improvements.

The overcrowded and poorly ventilated condition of the schoolrooms in Ward 2, especially those occupied by the two primary departments in the old Town Hall Building, calls for immediate action towards the building of a new schoolhouse in that ward.

The rooms occupied by the primary departments are low studded, very poorly ventilated, and not well heated; in fact unfit to be occupied by a large number of young children, who especially need good ventilation.

During the year we have been obliged to open a new school, and in order to do so a room was hired from Mr. J. R. Hughes in the upper story of the building formerly occupied by him. Some alterations had to be made in the building, yet it is poorly adapted for school purposes, and can only be considered as a makeshift until something better can be obtained.

The room occupied by the High School, in the Town Hall, is not a good room for the purpose, being long and narrow,

with windows only at the ends. It is not well lighted, and while it is high studded, yet the ventilation is by no means what it should be.

Although the rooms occupied by the two Grammar departments are better than those mentioned above, with the exception of the High School, yet they fall far short of what is required by law, and while this building might be so altered as to conform to the legal requirements, yet we believe it would be economy for the town to erect a building large enough to accommodate all the schools in this ward. We believe any of our citizens who will call on the schools during school hours, will be convinced that the accommodations are totally inadequate, and that the only true remedy is a new building.

Realizing the financial burden this will bring to the Town, we are of the opinion that it would be best to ask the Legislature to give the Town authority to make a special schoolhouse loan, payable in 20 or 25 years.

In providing for the education of our children we should not look at it wholly from a tax-payer's standpoint. We should consider that in making appropriations to provide means for the improvement and culture of our children, we are making an investment the result of which cannot well be estimated.

The voters of Saugus have not been parsimonious in making appropriations for school purposes, but have manifested a liberal spirit in the consideration of this important question. For years you have not refused to grant the Committee such sums as they deemed necessary to carry on this important department of the Town.

There are, however, expenses which cannot always be foreseen, and it is only by the most rigid economy that the expenditures can be kept within the appropriation. For two years in succession we have had to open a new school by reason of the overcrowded condition of some schools. This has made a large additional expense, as the cost of maintaining a school will average about six hundred dollars per year.

Under such circumstances it cannot be expected that your Committee can always keep within the appropriation. After making a careful estimate of the amount required for the ensuing year, we see no way of reducing it below the sum of

$12,000, and respectfully recommend and request that such sum be appropriated.

Arrangements have been made with the Lynn School Board whereby pupils living in Lynnhurst are permitted to attend school in that city, our Board paying the actual sum per pupil that it costs the city. And in case of a pupil from Lynn desiring to attend school in Saugus the same agreement has been made.

By this arrangement the necessity for a schoolhouse in Lynnhurst will be deferred for a time. Should there, however, be a rapid growth in this section it would be for the best interests of all to have a school opened.

While we believe that our schools compare favorably with those in towns of the same size as ours, yet we feel that there is room for great improvement, and that the time has come when the welfare of our schools absolutely demands that a superintendent be employed.

As the methods of teaching are constantly improving and changing, it is very necessary that we have a person to oversee our schools who has a thorough knowledge of the modern ways of instruction and school government.

The state considers the employment of a superintendent of so much importance that a large proportion of his salary, in towns whose valuation is less than $2,500,000, is paid by the state. The sum of $35,000 can be appropriated each year by the state for this purpose.

Saugus cannot afford to be behind in educational matters, and the Committee earnestly recommend that a superintendent be employed, believing that by so doing great improvement and advancement can be made in our schools.

It might be found practicable to unite with some neighboring town in employing one and so make the expense less, and the Committee hopes to have some such plan so perfected as to present it for your consideration at the annual March meeting.

Attention is called to the law requiring that children be vaccinated before attending public schools. Teachers should see that this rule is strictly enforced, when admitting pupils to the schools.

We also wish to call the attention of parents to the law requiring that all children between the ages of 8 and 14 shall attend school for thirty weeks each year, where schools are kept for that length of time.

Parents who neglect and break this law are liable to a fine of twenty dollars. It should be the duty of all parents to encourage a regular attendance of their children. The loss they sustain by losing even one day's schooling should be deeply impressed on their minds.

Encouragement can best be given to teachers and pupils by frequent visits from parents or guardians. In what better way can the parents ascertain what is being done in the schools than by calling and seeing for themselves what results are being accomplished?

It is safe to say that not five parents out of one hundred in our Town, have been into a schoolroom at a regular session during the year.

The following changes in teachers have been made: In North Saugus, Miss Coburn having resigned, Miss Annie B. McKenney was elected in her place. Miss Trowbridge having been given the new school in Mr. Hughes' building, Miss Elizabeth West was appointed in her place at Oaklandvale. Miss M. L. Newhall resigning from the Cliftondale primary, Miss Jenkins was elected and Miss Clara J. Calley selected as assistant. Miss Stearns having resigned from the East Saugus Grammar School, Miss Sarah Aldrich was appointed in her place.

Before closing the Committee desire to call the attention of parents to the columns of tardiness in Table No. 2. It is earnestly hoped that an improvement will be made the coming year in this direction. There appears to be no reason why the percentage of tardiness in one ward should be so much in excess of that in any other part of the Town. We feel that by an earnest effort on the part of the parents and pupils a great advance may be effected.

Respectfully submitted,

HENRY J. MILLS,
THOMAS P. PARSONS,
DONALD W. McDONALD,
School Committee.

REPORT OF PRINCIPAL OF HIGH SCHOOL.

To the School Committee: —

There are few changes to note in the work of the High School during the year of 1893. The courses of study have remained nearly the same. There has been no extension of time, for doing our work, consequently the results have been modified only by the changes of method which experience has suggested, or as the ability and faithfulness of the pupils has been greater or less than that of their predecessors.

It has always been our aim, as teachers, to make such use of the facilities within reach as to secure the greatest possible development of our pupils. Nothing can give the true teacher greater pleasure than to observe rapid mental and moral growth on the part of those under his care. But, while we have aimed to do everything in our power to facilitate the work of the schools, observation shows nothing more clearly than that the success of a school, as a whole, depends *chiefly* upon the faithfulness and diligence of the individual pupils. While we have endeavored to guide our pupils in such a way that no strength should be wasted in misdirected effort, we have especially endeavored to impress upon each one the fact that in school, as in after life, his success will depend mainly upon *his own work*. No one can gain mental or moral strength if all his burdens are carried for him.

The importance of this principle is, however, seldom appreciated by the pupil, unless the influence of the home is in the same direction. When parents insist upon *regular* and *punctual* attendance, and time for study at home sufficient (with that allowed in the schoolroom) to secure *thorough* preparation for the daily recitations, their children seldom fail to do good work.

The benefits received from a course in our High School might be greatly increased would parents only keep in closer touch with the teachers. If they cannot visit the schoolroom in person, let them, at least, give careful attention to the

monthly reports of their children's work. If a pupil is marked less than "excellent" in any study, the parent should at once carefully observe whether he is faithfully improving the hours assigned for study at home. If he receives less than "good," or "fair" in deportment, it is usually an indication that he is wasting his own time in school, and also disturbing and hindering others. Let the influence of the parent, so much stronger than that of the teacher, on account of closer relationship and larger association, be *positively exerted* in favor of correct deportment and the best scholarship of which the child is capable, and vastly greater advantage will be derived from the years spent in the schoolroom.

The attendance during the year has been good, though the per cent is a little lower than in some previous years. The absences were due largely to sickness, and to the severity of the weather during the winter term. There have been comparatively few absences for which no good excuse was rendered.

We are especially sorry to record an increase in tardiness, as we believe it to be entirely without good reason in nine cases out of ten. About two thirds of the whole number of instances of tardiness occurred during the fall term, when the weather was pleasant and favorable. More than three fourths of the whole was due to members of the Junior class.

The introduction of Bookkeeping into the Junior year makes a greater change for pupils entering from the Grammar Schools, and, as we believe, arouses a greater interest in their work. As Arithmetic has been dropped from the course, except as taught in connection with Bookkeeping, we shall be able to give more time to Physiology and Botany, which, heretofore, have received only eleven or twelve weeks each.

To speak of the *needs* of the High School would be only to repeat what we have said in previous Reports. As we said, in substance, last year, if we are to provide for our young people advantages equal to those of the towns about us, we must give them four years for their work, introduce a College Preparatory Course, and furnish a laboratory for the use of classes in the Sciences.

Just as it is, our High School furnishes invaluable educa-

tional privileges to our citizens, many of whom could not otherwise afford them. No young person of the age of those entering the Junior classes can perform successfully the work of even a three years' course without gaining a force and solidity of character which will greatly increase the strength and efficiency of his after work. *As it might be*, were its privileges enlarged, the school would not only furnish better advantages to those who already attend, but would attract a large number of pupils, and would furnish a stronger incitement to seek those higher forms of educational training so helpful and desirable in the *best* work of an American citizen.

WILBUR F. GILLETTE,
Principal of High School.

REPORT OF MUSIC TEACHER.

To the School Committee: —

As I look back over the past year, and think of what had been accomplished in the study of music, I feel that we have reason to expect good results at the end of the present school year.

My method of working is known to you. From the lowest to the highest grades the children are taught to work intelligently and to read music from the beginning. I find increasing interest in all the schools. The Intermediate and lower Grammar grades are doing the best work at the present time.

We are trying from year to year to have the scholars improve in sight reading, and we think we can see the results in our Grammar Schools, for in these grades we are doing much better work than at the corresponding time last year. The High School is doing very much the same work as last year.

I have to work at a disadvantage in Ward 5. The school there is small and has only a few boys to sing, so we have one-part singing. We are trying, however, to have them understand the rudiments of music, so as to be prepared for the higher grades. The work in Ward 1 is very gratifying for a mixed school.

As for the teachers, their coöperation is necessary, and I have found them always earnest and willing to do all in their power to help me.

I want to thank you again for your many kind words which have helped me in my work.

Respectfully submitted,

EMMA L. PEARSON,
Teacher of Music.
